**Designed for Performance, Built for Reliability**

# **ELECTRIC MOTORS**

**TEFC | ODP | Stainless Steel**

# ENGINEERED RELIABILITY

Are your motors truly inverter duty rated?

- ✓ Thermal switches
- ✓ Inverter duty insulation system
- ✓ High spike inverter duty magnet wire
- ✓ Shaft grounding ring (Optional)
- ✓ Insulated bearing 404T frame & larger (Optional)

## GSS Series

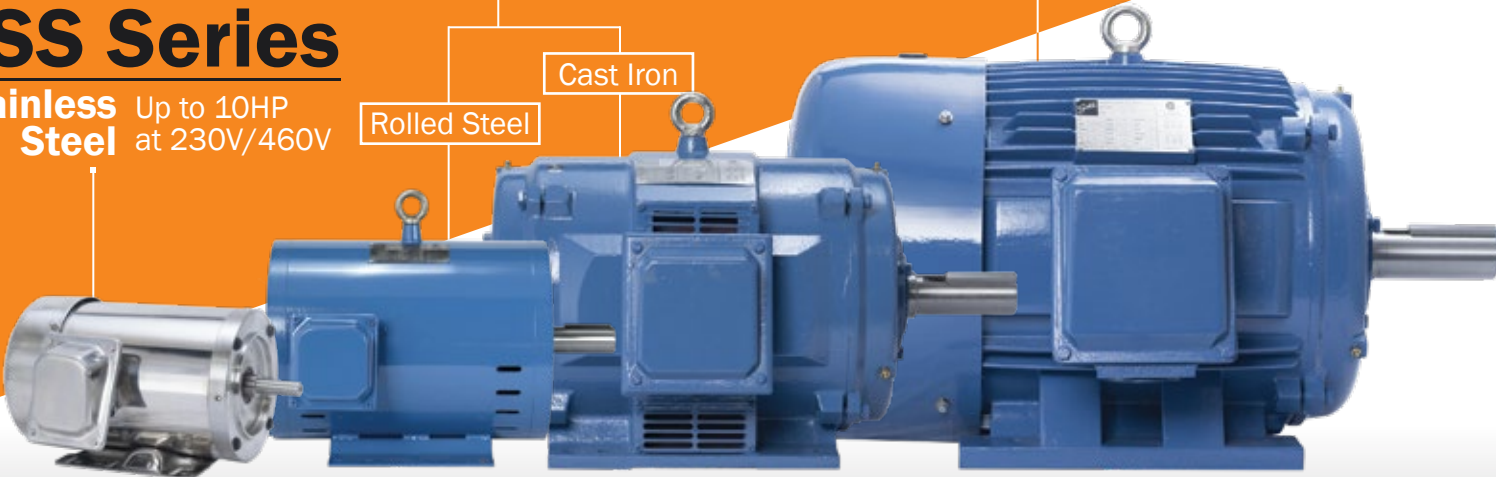

Stainless Steel Up to 10HP at 230V/460V

## GDP Series

ODP Up to 350HP at 230V/460V

## GPT Series

TEFC Up to 300HP at 230V/460V

# Longevity

## Going the distance

Galt Electric offers its latest electric motors, including TEFC, ODP, and stainless steel enclosures. Galt Electric motors are engineered to last in an industrial environment. Our motors will keep your operations up and running, with a precision balanced aluminum rotor, oversized bearing, inverter duty Class H insulation, better fit and finish, and many other features — all backed by a 3 year warranty. Our engineering prepares for the unexpected, so you don't have to.

The Galt Electric logo, featuring the word "Galt" in a stylized, cursive script font.
